

WHY BECOME A SPONSOR?

Sponsoring Northern Technology and Engineering Society (NTES) will enable your organization to:

- Show your commitment to activities that benefit and advance technology and engineering education in Northern BC.
- Illustrate your organization's commitment to assist and encourage students who choose to study technology and/or engineering in Northern BC.
- Gain brand exposure and visibility as a supporter of a society that campaigns to government and other stakeholders for more and better technical and engineering education in the North, for the North.

SPONSORSHIP PACKAGE

Northern Technology Engineering Society has been operating with no administrative budget as the funding for our past projects can only be used for project activities. Example of administrative costs: year end and government filing fees, advertising and catering at AGM, printing of society informational material (not attached to project).

We are asking our membership to look at our sponsorship opportunities to show your organization's commitment to activities that benefit and advance technology and engineering education in Northern BC.
